What are the materials and instruments the center covers?

- We cover some of the consumable material such as brackets, wires, ortho accessories, gloves, napkin Etc.
- All the candidates should get their own instruments such as orthodontic pliers, Low and High-speed contras, diagnostic sets, metal syringes, ortho composite.... Etc.

What certificate do we receive after training?

The aim of MORTH training program is to provide training in theoretical and practical parts. Each candidate receives experience certificate stamped and watermarked by the center, this certificate states that this candidate fulfilled the required training years.

What are the criteria of Training?

The Center follows British guidelines, so we have specific credit hours to be fulfilled during three years, whoever doesn't fulfill these criteria may need to repeat the year failed in or even dismissed from the program.

Who are the instructors?

They are all MORTH holders which is mandatory, to provide real experience related to the same MORTH education.

How can we pay?

Can we pay in installments?

Payment is done through cash in center only. The annual fees are paid through two installments before the start of each FINANCIAL semester.

What are the steps of registration?

1. Create account on our website
2. Fill the required information and uploading the cv including documented cases if available
3. Paying the registration fees (Deducted from the semester fees in case of acceptance, refunded in case of no acceptance)
4. Passing first and second interview then the placement test
5. Then we will pick the required numbers according to the available seats

How do I apply for the Training Program?

Visit our website and go to admission then follow the instructions,

<http://rdi-int.co.uk/en/index>

The application fees should be paid in cash at RDI.
